

IGIRANEZA Dominique

About me

Business Analyst and Data Scientist with hands-on experience across research, BI dashboards, and AI-powered tools helping organizations turn raw data into clear, actionable decisions.

Experience

Jan 2026 – Present

Rama Consult

Business Analyst

Lead market research and financial analysis to drive client growth. Support governance and digital transformation, turning insights into actionable roadmaps.

Sept 2022 – Nov 2025

EduConnect Rwanda

Facilitator, AI Enthusiast & Data Scientist

Delivered R, Excel, and Power BI training for early-career professionals. Supported applied research from data collection through to reporting.

Jul 2024 – Sept 2024

IPAR Rwanda

Researcher & Data Analyst Intern

Performed data cleaning, statistical analysis, and visualization for national research. Contributed insights and supported learners with data interpretation.

Education

2022 - 2025

University of Rwanda

Bachelor of Applied Statistics with Economics

Concentration in Economics, with coursework in statistical modeling, research methods, and applied data analysis.

Projects

2025

Smart Export Analytics | [Link](#)

Built an interactive R Shiny dashboard forecasting Rwanda's export performance with AI-assisted insights and GIS visualizations.

2026

Ubuzima Intelligence Platform | [Link](#)

Built a national-scale AI healthcare platform for Rwanda enabling appointment booking, symptom triage, and hospital resource tracking.

2026

IMBONI – AI Recruiter Copilot | [Link](#)

Built an AI-powered recruiting platform using Next.js and Google Gemini, featuring bias detection and explainable candidate scoring.
